IF I WERE A THIEF!

Everyone has his or her own view about the life. Everyone has also his own aim. Though to be a thief is not a good choice, but if I were a thief, I would do some good things for my society. In addition, if I were a thief I would never take it as my earning livelihood. I would steal only to perform some good activities for my society. If I were a thief, I would steal adulterated medicine. Many people die for taking illegal and adulterated medicine. I would also steal drugs that make people addicted, such as: heroine, cocaine, caffeine etc. There are many addicted people all over the world heading to death. The number of addicted people in our country is not so small. Therefore, if I can reduce the supply of these addictive drugs, I think the number of drug additives will be reduced. I want to make a team of thief to run my activities smoothly. I do not know if I ever been a thief like that, but this kind of thief is always welcome.
